

December 2010

1. True (A) or false (B) – click on the correct answer:

Integration into a community of educators is one of the benefits of the Network.

2. True (A) or false (B) – click on the correct answer:

Services that the Network provide include reviewing content for copyright.

3. True (A) or false (B) – click on the correct answer:

Research indicated that there is a need to assess the impact of physical therapy education on scholarly productivity.

4. True (A) or false (B) – click on the correct answer:

The lack of scholarly publications among the nurses at a Malawian university could be due to the lack of Master's degree programmes at the institution.

5. True (A) or false (B) – click on the correct answer:

Internationally there has been a move to more community-based training to ensure appropriate training.

6. True (A) or false (B) – click on the correct answer:

A key element of the Parallel Rural Community Curriculum (PRCC) is the focus on the undifferentiated patient as the basis for learning.

7. True (A) or false (B) – click on the correct answer:

In the Flinders PRCC programme integration of knowledge happens through practice and under the guidance of mentors.

8. True (A) or false (B) – click on the correct answer:

The presence of students and academics in rural areas leads to the development of a learning culture.

9. True (A) or false (B) – click on the correct answer:

A lack of time to explore psychosocial determinants of health and illness is a key barrier to implementing a biopsychosocial approach to patient care.

10. True (A) or false (B) – click on the correct answer:

The biopsychosocial model is the paradigm that 'enfolds' knowledge from different disciplines.

11. True (A) or false (B) – click on the correct answer:

The principles of primary health care encourage communities to assert their rights and interests.

12. True (A) or false (B) – click on the correct answer:

Clinicians and anthropologists can bring complementary aspects of health care together in an integrated manner.

13. True (A) or false (B) – click on the correct answer:

Lack of geriatric knowledge and skills has significant implications for health care providers working in rural areas.

14. True (A) or false (B) – click on the correct answer:

The FAQ1, developed by Erdman Palmore, is a reliable measure of geriatric knowledge in a variety of cultures.

15. True (A) or false (B) – click on the correct answer:

A positive attitude towards older adults (OAs) is significantly associated with having lived with an OA relative.

16. True (A) or false (B) – click on the correct answer:

Geriatric competencies commonly recommended for all health care disciplines include understanding risk assessment and health promotion and mental, physical, affective, psychosocial and environmental aspects.

17. True (A) or false (B) – click on the correct answer:

Chronic wounds affect 2.8 million patients in the USA.

18. True (A) or false (B) – click on the correct answer:

A knowledge score of 70% is regarded as indicating sufficient knowledge to treat various types of chronic wounds successfully.

19. True (A) or false (B) – click on the correct answer:

GPs are more interested than registrars in receiving wound-care literature.

20. True (A) or false (B) – click on the correct answer:

Surgical registrars may possess insufficient knowledge to act as teachers during a wound-care module.

CPD questionnaires must be completed online via www.cpdjournals.org.za

After submission you can check the answers and print your certificate.

Questions may be answered up to 6 months after publication of each issue.

Accreditation number: MDB001/010/01/2010 (Clinical)
